RE: Request for documents pertaining to Burlington Northern Santa Fe (BNSF) Rail Yard Cleanup

Dear Ms. Butler:

You requested documents pertaining to the BNSF cleanup of the rail yard in Libby, MT. As we discussed, some of these documents are currently being scanned for entry into our electronic Libby database and are not currently available. However, I reviewed the index of those that have already been scanned and most applicable documents are available. I've enclosed a CD with these documents. Other documents will be added to the database in the future as available.

You also requested photos of the cleanup. We have no photos but I have requested assistance from BNSF. I expect to hear from them after the holidays. There is no charge for this CD. If you have any questions, feel free to contact me at (303) 312-6748. If you need help using the CD, please contact Pat White in our Superfund Records Center at (303) 312-6680.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Christiansen", is located below the typed name.

Jim Christiansen
Remedial Project Manager
